203 DUNDEE AVENUE
BARRINGTON / VILLAGE OF BARRINGTON

HISTORIC PLAQUE

203 DUNDEE AVENUE HISTORIC GEORGIAN

FEATURES

This Georgian home is an historic hometown treasure. The original house was built in 1894 and its architecture came to life in 2005 when it was fully refurbished and expanded. At 6200 sq ft ABOVE GRADE this may be the largest home in the Village. Chicago architect John Eifler's design harmonizes the exterior of Chicago common brick, cut limestone, columns, cedar trim and sawn shingles, copper flashings and gutters, and 90 Marvin windows. The builder's utilization of GREEN BUILDING SYSTEMS including blown in icynene insulation makes this home amazingly efficient. It's located in the heart of Barrington IL on a tree-lined street easily walkable to the Village's downtown with its upscale restaurants, shopping, Starbucks, Catlow movie theater, Metra train to Chicago, and the award-winning Barrington CUSD 220 schools. The main level has a large foyer, his and hers offices, family room, sitting room, dining room, butler's pantry, and kitchen with custom-made inset cherry cabinets, 4-oven Aga cooker and Herbeau farmhouse sink. The 2nd level has a master suite featuring a large dressing closet and 4 ensuite bedrooms. The 3rd level has another full bathroom & a large bonus room which offers playroom, homeschooling room options. The lower level has a rec room, full bath, large laundry room, and 3-car heated garage. Interior features include 3-stop elevator, extensive woodwork, heated hardwood floors, oil rubbed bronze hardware, etched glass light fixtures, 4 gas fireplaces, towel warmers, and stained-glass window. Exterior features include a private brick paved courtyard, front and side porches, brick paved parking/play court, and the 66' x 139.5' lot features award-winning landscaping.
