This fabulous home offers over 4,000 square feet of living space on 1+ acres in a private enclave with no HOA. Beautifully maintained and designed for effortless living and entertaining, the home features a resort-style backyard, executive office, extraordinary heated oversized garage, modern home automation and spectacular sunset views. Inside, a light-filled floor plan showcases 9-foot ceilings, arched entries and beautiful architectural details. Formal living and dining rooms provide elegant entertaining spaces, while French doors open to an executive office with custom built-ins and dual workstations. The dramatic two-story family room features a floor-to-ceiling gas fireplace with custom built-ins and opens to the chef's kitchen with Wolf appliances, Miele dishwasher, abundant cabinetry, two-tier island and walk-in pantry. A powder room, spacious laundry and mudroom with built-in cubbies, bench and walk-in closet completes the main level. Upstairs, the luxurious primary suite is joined by two bedrooms with vaulted ceilings and a Jack-and-Jill bathroom with separate vanity rooms. A large bonus room with walk-in closet offers potential as a fourth bedroom, while the spacious loft could accommodate a fifth. The English basement provides excellent future finishing potential. Outdoors, enjoy a heated saltwater pool, separate hot tub, expansive paver patio, deck with gas hookup, oversized fire pit and integrated audio. The heated oversized garage is equally impressive with extra-deep bays, lift-ready ceilings, RV/boat-height door, custom cabinetry, sink and basement access. Whole-house audio, lighting and security automation complete this exceptional home.
