FEATURES

This magnificent, and stately stone residence on 1.73 acres, was custom designed, and completed in 2003 by Charles and Steven Page, of Page Custom Homes. A "smart home" fostering an elegant, modern open floor plan, of exquisite design and superior craftsmanship. Sophisticated in style, with floor to ceiling windows showcasing the glorious lakefront views, and seasonal changes throughout the landscape. Richly appointed, with only the finest materials, including travertine and hardwood flooring, custom wood-mode cabinetry, stone countertops, and professional grade appliances. Featuring a slate roof, dual staircases, beamed and coffered ceilings, architectural moldings and millwork, multiple fireplaces, and an elevator servicing all levels. All bedrooms are ensuite with generous walk-in closets and full bathrooms. The handsome, paneled library with built-in bookcases, and all season, stone clad sunroom, both, have idyllic views and access to the backyard, as does the gourmet kitchen with breakfast area, and hearth room. A custom home theater, first and second floor laundry rooms, enormous in-law suite, and four car, side load garage, add to the significant amenities to be found in this impeccable residence. Perfectly planned for the ultimate in outdoor entertaining, the tranquil, secluded backyard oasis, boasts a sprawling bluestone patio surrounding an enormous, resort style, in-ground pool and spa, built-in grill, and lush landscape while providing the perfect retreat to relax and enjoy glorious views of Lake Michigan.
