Perhaps one of the best kept secrets along the Michigan coastline, welcome to Weko Beach. This four bed three bath home is snuggled in the rolling dunes that define this quiet community and is perched on a post card like setting. The Southern exposure lights the main floor with an amber glow providing the perfect atmosphere for observing the flora and fauna just outside the window. Just a short jaunt down a tree lined grove and you will be on the sandy shores of that well kept secret! The beach and boardwalk offer the perfect escape for gathering with friends and family or for peaceful reflection as the melody of TAPS softly plays out by the bugler at sunset. Bridgman has become a destination with eclectic restaurants and breweries which are all just minutes away. Welcome to Weko Dunes!
