@properties

Welcome To This
Starstruck Beauty...

by famous architect to the stars, Richard Landry.

68 Locust Road

68 Locust Road, situated on the beautiful North Shore of Chicago, is renowned for its timeless perfection. Set on over 2 acres of impeccable landscape by Scott Byron, the masterful creation was built by Landry Design Group and is the only Richard Landry masterpiece in the Midwest. Landry, famous for his celebrity homes in Malibu to Los Angeles, designed 68 Locust with uncompromising quality, dedication, and unparalleled experience. This home's innovative architecture has "quality" woven throughout with not one expense spared. This custom,

spectacular home emulates both a timeless sophistication as well as high end, modern luxurious living. The Tiffany stained glass dome with 30-foot ceilings in the entryway, to the coffered architecture surround, and 24 carat gold leaf ceiling details make this home incomparable. Walk the professionally landscaped grounds with bluestone walkways, see the circular driveway with fountain, or swim in the uniquely designed pool. This home has everything and defines the word "lifestyle."

Overview of Levels

ENTRY

Hanging in the rotunda is a gold, iron chandelier made of rare lead and rock crystals. The grandest, two-sided staircase with metal detailing is perfectly paired with limestone steps and a polished Fleur-de-Lis floor design. The fine art collection and crystal chandelier sconces against the Venetian plaster walls complete this space.

FIRST LEVEL

Aged walnut doors and Versailles-patterned wood floors continue down the hall to the additional spaces on this level. Grand, formal spaces of the living and dining rooms flow with more relaxing rooms of the kitchen and glass-enclosed porch, which is perfect for all seasons. Each room on this floor has ornate plaster walls, crown moldings, and walnut millwork accessories. The dining room has a secret passage to a Butler's pantry and to the de Giulio catering kitchen, which is ideal when hosting events. The library has polished walnut paneling and custom bookshelves. Sunshine and light pour through the rooms, windows and galleries in this house. The open and desired floor plan reveals the finest details of hand-carved limestone fireplaces, hand-scraped walnut floors, radiant heated floors, and all bronze cabinet hardware from Paris.

KITCHEN

The main, sunlit, kitchen is the perfect space to cook and entertain with spacious countertops, a separate breakfast eating area, and food pantry closets. The kitchen is custom designed in iron and glass from Moebius Ironworks, de Giulio kitchen cabinetry, and the countertops are of brown Antique Granite and Breccia Meduse marble. Top-of-the-line appliances include two Sub-Zero 36" refrigerators, freezers, and drawers, a La Cornue black & gold cooking range, a Wolf double oven (with two additional ovens, 6 burners with one French sauté burner). Three Miele dishwashers, and faucets by Rohl. Impeccable details with crystal chandeliers for the island and breakfast room and Lutron roll down shades in each space.

SECOND LEVEL

Continuing to the second level, this livable floor has a private master suite to the right, with sitting rooms, walk-in-closets, a fireplace and a hotel-like bathroom. Three additional guest suites, all furnished with elegant marble bathrooms, customized walk-in-wardrobe rooms, and fireplaces complete the left wing. A white cabinet and marble countertop laundry room

Overview of Levels

with double washer/dryers, a utility sink, and marble island is perfectly placed next to the floor elevator access and off the back staircase.

LOWER LEVEL

The wine cellar, with pebble flooring and situated beneath the Rotunda, opens and separates the lower level. Heavily distressed and uneven plaster walls model an Italian cave, and reclaimed antique and rugged limestone floors are imported from France. Behind the wine cellar is a backlit bar with antiqued mirrors and millwork, custom cabinetry, island seating, and dark wood detailing. The bar countertop is made of wood and honed Breccia marble. Beautiful walkways lead to the theater room, exercise room, gift wrapping room, tranquil private spa, and a powder room with a hand carved Italian marble sink. The bonus in-law suite, third de Giulio kitchenette, and access to the pool make this a flawless lower level.

Property Features

GENERAL FEATURES

- Custom designed windows and doors manufactured in Italy
- Solid 2-inch walnut doors with custom hardware
- Radiant floor heat throughout, hand-scraped wood floors throughout
- Crestron Home Automation System and Lutron Home Lighting System
- Crown molding and ceiling plaster on first and second floors

Neighborhood

NORTH SHORE - WILMETTE

Neighborhood — One of the original North Shore villages, Wilmette is a role model for communities aspiring to be all they can be. Wilmette's proximity to the city (just 14 miles north) makes commuting a breeze via Metra and I-94. There are plenty of sights to see along the way: The awe-inspiring Baha'i Temple, a highly visible landmark along Sheridan Road; and the historic downtown district and Plaza Del Lago with exceptional shopping. With highly rated schools and a wealth of amenities, Wilmette has been ranked by Chicago magazine as one of the Chicago area's best places to live.

Housing — Wilmette offers a wide range of housing prices and styles. Quintessential Cape Cod, Victorian and Colonial homes line the village's historic streets, many of which are paved with clay-fired bricks from the 1800s. In addition to single-family homes, there are beachfront condominiums and more affordable townhomes. While well-kept homes maintain Wilmette's rich architectural history in all of its glory, new construction attests to the Village's enduring popularity.

Lifestyle — After school, work and a short commute home, there's this: Recreation. The village enjoys an abundance of lakeside and recreational activities. There's 60-acre Gillson Park and Beach, Wilmette Harbor, and the Centennial Recreation Complex, which includes swimming, tennis and ice-skating.
